WORLD CLASS GRADUATE ECONOMICS PROGRAMS

CERGE-EI offers world-class graduate education in economics to students from around the world, with special focus on countries of Central and Eastern Europe and the former Soviet Union. Our US-style Ph.D. and Master's programs, U.S. certified and recognized across the EU, are taught in English by western-qualified economists.

Our full-time MA and PhD programs were launched in 1991. Since then, hundreds of students from 54 countries have chosen to study with CERGE-EI.

Throughout their studies, our students benefit directly from the generosity of our donors: free tuition and stipend support are essential in making sure that talented students can access our study programs regardless of their socio-economic background. At CERGE-EI we equip them with the highest quality knowledge and skills to help them forge successful careers in applied economics or economics research.
